SUMMARY

Web Developer with strong problem-solving skills and hands-on experience in building full-stack applications using React.js, Node.js, MongoDB, and Express.js. Actively practicing Data Structures and Algorithms in Java to prepare for software engineering roles. Seeking a role where I can apply both development and algorithmic skills to build scalable solutions.

WORK EXPERIENCE

Zidio – Web Developer Intern

May 2025 - Present

- Integrated AI APIs for smart features.
- Built UI components with React.
- Worked with REST APIs and real-time data manipulation

PROJECTS

Personal Portfolio

- Clean, responsive design with animations and light/dark mode.
- Showcases all major projects and GitHub activity

Text Converter Tool – React.js

- Created a utility to perform real-time text conversions (reverse, count, etc.).

Excel Analytics Platform

- Upload Excel files and visualize data using interactive charts.
- Authentication, responsive UI, used libraries like XLSX.
- Integrated openAI API to perform smart excel analysis.

TECHNICAL SKILLS

- Languages: Java, JavaScript, HTML5, CSS3
- Frontend: React.js, Next.js, Bootstrap 5, Chart.js
- Backend: Node.js, Express.js, MongoDB
- AI Integration: OpenAI API
- Tools: Git, GitHub, REST APIs, Excel Handling, CSV
- DSA Platforms: LeetCode, GeeksforGeeks (Java Practice)
- Soft Skills: Communication, Problem-solving, Teamwork

EDUCATION

Bachelor of Technology – CSE

Haldia Institute of Technology, West Bengal

- Computer Science & Engineering.

LANGUAGES

English: Proficient, Hindi: Native
